90-Day Master Filmmaking Lab

An Intensive, Career-Boosting Filmmaking Experience in Italy

Are you ready to take your filmmaking skills to the next level? The **90-Day Master Filmmaking Lab** is an **immersive, hands-on program** designed for ambitious **Directors, Screenwriters, Cinematographers, Editors, and Producers**.

Based in **Lucca, Tuscany**, this **industry-driven program** gives you the chance to work on **real film productions, collaborate with professionals, and build an industry-ready portfolio**.

Whether you want to direct, write, shoot, or edit, this program provides the practical experience and career boost you need to succeed.

Program Highlights

- **Learn by Doing** – Hands-on filmmaking from day one
- **Work with Industry Mentors** – Learn from active professionals
- **Real-World Film Productions** – Contribute to at least two films
- **Master Your Craft** – Specialize in directing, screenwriting, cinematography, editing, or producing
- **Collaborative Teamwork** – Work with fellow creatives and build essential skills for project success on set and beyond
- **Exclusive Industry Access** – Festival strategies and networking with professionals
- **International Filmmaking Hub** – Join a global community in the heart of Tuscany

Who Is This For?

 **Aspiring Filmmakers** with completed studies or relevant field experience

-  **Directors** who want real-world experience
-  **Screenwriters** looking to develop and refine scripts
-  **Cinematographers** who want to master lighting and camera techniques
-  **Editors** who want to perfect storytelling through post-production
-  **Producers** ready to take projects from concept to screen

Curriculum Overview

Module 1: Foundations & Storytelling (Weeks 1-4)

- Advanced storytelling and script development
- Directing actors and scene composition
- Cinematic language, shot listing, and visual planning
- Screenwriting workshops and production logistics

Module 2: Hands-On Filmmaking (Weeks 5-8)

- Work on **at least two films** (project-based learning)
- Small project groups: **Director, Cinematographer, Editor, Producer, Audio**
- Industry mentorship and real-time production experience
- Post-production workflow, sound design, and color grading

Module 3: Industry Readiness & Final Showcase (Weeks 9-12)

- **Final Film Production:** Shoot and edit a professional-grade project
- **Festival & Distribution Strategy:** Learn how to market and submit your work
- **Industry Networking Event & Career Mentorship**
- **Final Screening:** Showcase your film to peers and professionals
